About Us

Freeny Logistic is a district contracted alternative transportation company focused exclusively on providing solutions to student transportation needs. Our adaptive vehicles supplement school bus routes beginning at the request of the district and ending with the safe arrival of special needs, McKinney-Vento, and out-of-district students to school each day. We supply an unlimited suite of well-equipped vehicles that meet every child's adaptive need including wheelchair accessibility, safety seats, monitors and vests. Our proprietary mapping technology updates around the clock ensuring that every child enters and exits the vehicle via a safe and time-saving route.
